Summary

Equipped with strong problem-solving abilities, adaptability, and excellent communication skills, poised to contribute to team success and achieve positive results. Ready to tackle new challenges and advance organizational objectives with dedication and enthusiasm, leveraging a swift capacity to learn and apply new skills.

Education

B Tech in Information Technology (KTU) 2022 – 2026

Amal Jyothi College of Engineering, (Autonomous) Kottayam, India

- CGPA: 8.35/10.0

Higher Secondary Education(CBSE) 2022

Sacred Heart Convent Senior Secondary School Kottayam, India

- Percentage: 85.4%

Secondary Education(CBSE) 2020

Sacred Heart Convent Senior Secondary School Kottayam, India

- Percentage: 91.6%

Experiences

Software Developer Koovappally, Kerala

Hudson Software Solutions Private Limited

Jan 2026 - Present

- Contributed to the development of AI-driven SaaS and ERP solutions tailored for enterprise needs.
- Built cloud-native platforms, automation tools, and scalable enterprise systems using Python, AI frameworks, and cloud technologies.

Backend Developer Intern (Node.js) Koovappally, Kerala

Leopard Tech Labs

June 2025

- Built and tested Node.js applications including a hotel booking system with secure user authentication and booking features.
- Developed a self-driven project, Task Manager, featuring user/admin roles.

Android App Developer Intern (Flutter) Koovappally, Kerala

Leopard Tech Labs

June 2024 – July 2024

- Built and tested Flutter mobile applications with enhanced performance optimization and ensured cross-platform compatibility.

Projects

Learning-Enhanced RRT with Voronoi-Guided Path Optimization

- Hybrid planner combining RRT with Voronoi diagrams for maximal-clearance global guidance and locally adaptable exploration. **Tools Used:** Python, OpenCV, PyTorch

Native Goods

- Created a full-stack platform enabling local sellers to list and manage products online with an intuitive frontend and a robust backend. **Tools Used:** Django, PostgreSQL, HTML, CSS

Employee Management System (EMS)

- Built a Java-based desktop application to help organizations manage employee records efficiently using Java Swing. **Tools Used:** Java, MySQL

Technologies

Programming Languages: Java, Python, SQL

Frontend: HTML, CSS, Figma

Backend & Databases: Node.js, MongoDB, PostgreSQL

Concepts: SDLC, Agile Methodologies, Artificial Intelligence, DSA, OOPS

Achievements

- Winner-NASA Space Apps Challenge 2025 (Senior Category) at Amal Jyothi College of Engineering
- Selected for funding in Phase-II of the Innovation Ideas Unleashed (I²U) 2025 Project Contest
